About ICBEB

The International Conference on Bio-medical Engineering and Biotechnology (ICBEB), as an annual gathering, has been successfully held in the past seven years. It has provided an extensive platform for academic exchange for more than 1,000 participants from the United States, United Kingdom, France, Germany, Spain, Japan, Republic of Korea, etc.

The first ICBEB, initiated by University of Macau and co-organized by IEEE Macau Branch and Macau Society of Biomedical Engineering in 2012, attracted more than 200 participants at home and abroad, laying a solid foundation for its future influence all over the world.

ICBEB 2019

The 8th International Conference on Biomedical Engineering and Biotechnology

October 22-25, 2019
